

GLLB | MECHANICAL BRANCH CONNECTOR

Application:

Used for intermediate branch connection of copper cable, aluminium cable and aluminium alloy cable in medium voltage.

Material:

Body: high strength aluminium alloy
Bolts: aluminium alloy

Surface:

Tin plated

Feature:

Oil blocking structure

Type	AL in mm ²			CU in mm ²		Shear-off Torque (N.m)	Number Of Bolts	Wrench Size	Pack (pcs)
	round stranded	sector stranded	round solid	round stranded	sector stranded
